Arjun Desai

Generative AI Engineer

Ahmedabad, India | arjun.desai@example.com | +91 90000 00109 | linkedin.com/in/arjun-desai-example | github.com/arjun-genai-example

PROFESSIONAL SUMMARY

GenAI engineer with 3 years of experience building LLM applications: RAG pipelines, agents and evaluation.

SKILLS

LLM Stack: LLMs (GPT, Gemini, Llama), RAG, LangChain, LlamaIndex, prompt engineering, Hugging Face transformers
Vector DBs: Pinecone, ChromaDB
Engineering: Python, FastAPI, Streamlit, Docker, SQL
Cloud: Azure

PROFESSIONAL EXPERIENCE

Generative AI Engineer | Cognify AI, Ahmedabad Jun 2024 - Present

- Built a contract-analysis RAG assistant on Azure using LangChain and Pinecone; evaluation harness with 300 test questions.
- Prompt engineering and guardrails cut the hallucination rate from 14% to 3%.

Software Engineer (ML) | DataSprout, Ahmedabad Jul 2023 - May 2024

- Built FastAPI services and Streamlit demos for NLP models; worked with Docker and SQL.

PROJECTS

- Multi-agent research assistant: LangChain agents that search, summarise and cite sources; used by 50 internal analysts.

EDUCATION

B.E. in Computer Engineering, Sabarmati Engineering College, Ahmedabad 2019 - 2023
